

Hello all,

Last week we had a good turnout so we were able to get the east rail and switch point installed.

For this week we need to finish spiking the east rail and install the west switch point and guard rail. After that comes the frog and the closure rail! Tuesday and Thursday we will start at 5pm. Saturday we will start at 8am.

The weed crew was busy Tuesday trimming trees as the man lift has a new battery and starts now.

Hope everyone had a great 4th of July.

See you out on the line
Alan, Chris and Sandy
