Hello MOW folks and welcome to the next installment of the MOW weekly update! We had an interesting week so let's get to it, "IT'S BUSINESS TIME!"

WEEK IN REVIEW:

Tuesday: We worked in the shop as normal for a Tuesday. Gene and Mike worked on the carburetor on the A4 motor car. Pat and Gene did some awesome work around the shop. Richard and Heather did some equipment shuffling around the shop, and Chris and John worked on the leaf vacuum. Sandy was there of course and he was busy doing Sandy things.

Thursday: More work in the shop by Bert on his motor car roof. While Ron, Richard, Heather, and John went out and did some MOW magic on the shore power cable at the freight depot vault to lengthen the cable for the first train of the year.

Saturday: MOW attended the General meeting with the SSRR Crew as well as the First train of the year. A few of the crew went back to the shops and did some work on equipment there.
