

# MOW WEEKLY UPDATE!

9/7/2010

---

Hello MOW Folks, It is that time again for your MOW Weekly Update. Now I know some of you did not get the update last week. That is because I did not get around to sending out the update. So we will make up for that with a short but important update this week. I also had a number of really cool photos from last week to share, but because I am feeling lazy and do not want to go find them in the computer we will just have to hope for great photos for next week. So let's not waste a moment and get down to the updating.

## WEEK IN REVIEW:

**Tuesday:** MOW was active in the shops doing all manner of shop stuff with a dedicated crew of professionals.

**Thursday:** A small be dedicated MOW crew took the evening to wrestle the fire truck from the erecting shop to the boiler shop for preparation. What are we preparing the fire truck for, read on to find out.

**Saturday:** Sandy led the crew on Saturday as they worked in the shops yard removing all the CSRM track materials that had been placed out in the yard over the years. This is in preparation for the eventual removal of all but one access track to the shop by a rail contractor hired by the property owner. They did good work!

## WEEK AHEAD:

**Tuesday:** We will be busy in the shops, We have the fire truck to prepare as well as some emergency work on a switch in the Old Sacramento yard. We will meet at the shops at 3:00 p.m. for those with a light pay labor calendar or at 5:00 p.m for those with a heavy pay labor calendar.

**Thursday:** Again we will meet at the shops for work on many shop style projects and maybe even some track work. We meet at the shops at 5:00 p.m.

**Saturday:** This will be a work day on the railroad. Much to do and only a day to do it all, or at least as much as we can. Meet at the shops at 8:00 a.m.

## SPECIAL PROJECT REQUEST:

We are preparing the CSRM fire truck to be taken to Folsom for their rail fare this Month. We need volunteers to go with the fire truck, to operate, and man the Parks table at the event. The dates are **September 17, 18, 19** a Friday, Saturday, and Sunday. If you can help on one, two, or all three days. Please respond to this e-mail as soon as possible so we can put you on the crew list. Lots of fun and it is a local event!

See you out on the line,

John, Sandy, and Chris
