

# SSRR SIGNAL DEPARTMENT SIGNAL SHOP REPORT

---

Date: February 14, 2013

Report No. Signal Shop 2013-05B

---

## Daily Signal Shop Report for February 14, 2013

### Signal Shop Work Day 2013-05

Crew: Bill, Bob, Dennis, Gary, Jim2, Joe1, Carl [afternoon]

Briefing by: Joe1 – Signal Shop Supervisor

Safety Rule For Today: Rule No. 70.1 – Safety Responsibilities

The Signal Engineer attended the Briefing and announced that CSR Management has requested Liability Agreements be developed for use when the Signal Shop Department works with other entities such as Museums or Railroads. Also announced was that Signal Shop Worker Dennis Noble has volunteered to develop the Signal Shop Safety Program and that anyone wishing to participate and help are encouraged to do so. All Signal Shop crew members were requested to submit a list of tools that they believe the department should obtain and have on hand in order to operate safely, effectively and efficiently.

The Signal Shop Supervisor attended a meeting at the Museum from 10:00 AM to 11:00 AM during which time Jim2 was placed in charge of the shop.

The following was accomplished:

Bob put finishing touches on PSVRR Griswold No. 2 Mast and accessories. We are still missing a few parts required to install lights etc.

Dennis and Bill continued their “attack” on Wabco No. 6 Gate Mechanism with technical assistance from Gary Rannefeld.

Gary and Joe1 developed a plan to safely store Wabco No. 5.

Jim2 continued his assault on the inventory of equipment and supplies

Carl arrived in the afternoon and selected a “new” Gong to restore and submitted the cost sheet from prior work accomplished.

All crew members assisted in pulling together a “wish” list of parts and materials needed for the next Signal Shop Work Day.

Respectively Submitted.

Joe1  
Signal Shop Supervisor
