SACRAMENTO SOUTHERN RAILROAD

CIRCULAR –15

CLUNIE CROSSOVER SWITCHES

APRIL 25, 2014

The normal position of crossover switches at Clunie is for other than crossover movement.

The crossover switches shall be left lined in normal position, except when they are in use for crossover movements.

All concerned shall take care to ensure that switches are properly lined for intended route.

End of Circular—15

Richard N. Noonan
