SACRAMENTO SOUTHERN RAILROAD

CIRCULAR -17

CENTRAL PACIFIC PASSENGER STATION ON-TRACK EQUIPMENT STORAGE

APRIL 25, 2014

1. GENERAL

The Central Pacific Passenger Station (CPPS) tracks are numbered one (1) through three (3) west to east. The locomotives and rolling stock can be placed per the list below, with restrictions noted.

2. INSPECTION BEFORE MOVEMENT OF ON-TRACK EQUIPMENT

Before any movement is made in or out of the CPPS, an employee must inspect the gates to insure that they are secured in the completely open position so that locomotives, railcars and structures will not be damaged due to close clearance.

3. RAILCARS OR LOCOMOTIVES WITH THREE-AXLE TRUCKS

Railcars or Locomotives with 3 axle trucks must never be placed or switched to Track 3 unless authorized by Manager, Railroad Operations.
